Contract Textiles: Drapery and Specialty Curtains: Codes, Safety & Compliance

A 1-Hour CEU Course:

Master the technical complexities of specifying suspended textile systems. This course provides an in-depth analysis of fire codes (NFPA 701), life-safety regulations, and performance guidelines for contract drapery and specialty curtains. Evaluate safety nuances for hospitality drapery, clinical privacy tracks, antimicrobial shower curtains, and retail partitions to ensure code-compliant, hazard-free installations.

Specifiers Will Learn:

- Name the 5 contract performance guidelines as defined by ACT
- Understand the elements, treatment styles and fabrication options for drapery, curtains and window treatments.
- Understand fire and safety codes, compliances, regulations and cleaning + maintenance considerations
- Learn how to submit a proper and complete specification for these types of fabricated textiles.

CEU Event Information (IDCEC Accredited):

- Course Length: 1 hour
- Course Code: CEU-125677
- Designation: Health, Safety and Welfare
- Learning Level: Basic
- Subject Code: 5. Technical Knowledge | 1. Acoustics
